

# White Family Garden Restoration

An invitation to the families of:

Ella Elmira White

Rollin Henry White

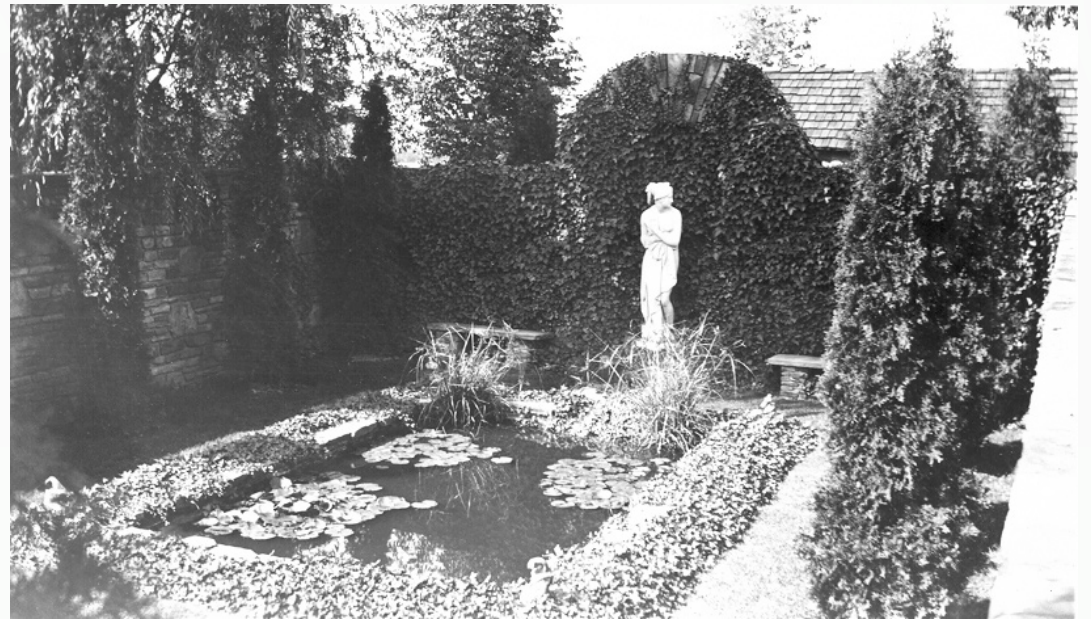

Walter Charles White

Windsor Thomas White

# The Formal Gardens of Mrs. Walter White

The formal cutting garden

Athena and the fountain pool

# The 2024 Restoration Project

- Hawken School is looking to renovate the historic Circle W gardens surrounding the White House, starting with the fountain pool garden now known as the Shakespeare Garden.
- The school has worked with a landscape designer to develop a new garden space that pays homage to the history of the formal gardens once there but requires less daily maintenance.
- Our goal is to obtain funding for the project before the end of summer so that installation can take place during the cooler fall.

# Artist's Rendering of the new White Family Garden

# Funding the Project

- The projected cost of the restoration is \$20,000
- This includes redoing the existing garden beds, bringing water and power out to the site, installing the water fountain, raising the Athena statue about 2 feet and laying walking paving stones around the fountain (as shown in the artist's rendering).
- Hawken has obtained a \$10,000 challenge from an anonymous donor who heard about the planned restorations.
- If the White Family raises \$10,000, this donor will contribute \$10,000 to complete the project.
